Dear Applicant,

The Americans with Disabilities Act (ADA) of 1990 is federal legislation that supports the rights of people with disabilities to participate more fully in community life. As required by the ADA, all Community and Everett Transit buses and facilities are fully accessible for people with disabilities. For ease of entry, all buses kneel (lower to ground level), or have ramps and/or lifts. In addition, other accommodations such as wheelchair securement areas, audible and visual stop announcements, and free training to learn how to use the bus (call 425 348-2379 for more information), make regular bus service possible for most people with disabilities.

The existence of a disability does not, by itself, qualify you for paratransit service. Eligibility is based solely on your functional ability to use the regular bus. If the effects of your disability prevent you from getting to/from a bus stop, waiting for a bus, getting on/off a bus, or navigating the bus system, you may be eligible for some level of paratransit service. Eligibility determinations are based upon the limitations caused by your disability and will be tailored to your individual abilities. You may qualify for partial or full service.

Paratransit service is similar to the regular bus in fare structure, days, hours, and service area. Our service is available within 3/4 mile of the regular, fixed-route bus route, on the same days and during the same hours the regular bus service is offered.

After you submit your application, we may request you to participate in an in-person functional assessment. Your application will not be considered complete until all requested information is provided to us. Once we have received all of the necessary information, an eligibility determination will be made within 21 days. You will be notified by mail of the decision.

(over)
If you feel that, due to the effects of your disability, you are unable to successfully travel using the regular bus, some or all of the time, please complete the application form.
