Everett Transit is planning to improve bus stops along Broadway between 34<sup>th</sup> Street and 7<sup>th</sup> Street during spring and summer of 2017. There will be stop additions and relocations.

The purpose of this work is to add “bus bulbs”—a cement pad that projects out from the curb—to each of the bus stops within the corridor. This will allow for improved safety, shorter stop times and more parking. New amenities will also be added to most stops.
