

SERVICE CHANGE September 2021

Overview

Everett Transit has received COVID-19 recovery funds, allowing the agency an opportunity to restore some of the service cut during the pandemic. This service change will take effect in September 2021.

Using the recent feedback collected from customer surveys, we plan to adjust several routes, restoring service where it is needed most. In this brochure you will find information regarding changes to route frequency, service area and span of service.

We have evaluated route 4 and plan to remove service in an area with low ridership to provide service to growing businesses off of E Marine View Drive.

Please review the planned changes and submit your feedback on the form inside this brochure or on our website: EverettTransit.org/servicechange.
